OBJECTIVE

Software Engineering student, currently in the second semester, looking for an internship opportunity in Information Technology. Knowledge of HTML, CSS, JavaScript, Python and Java, with hands-on experience in personal and academic projects, including consuming REST APIs with Spring Boot. Organized, proactive and with a strong interest in learning and growing in software development.

EDUCATION

Bachelor's Degree in Software Engineering — PUC Minas
In progress (2nd semester)

High School Diploma (completed)

COURSES AND CERTIFICATIONS

Introduction to Quantum Computing — PUC Minas (ICEI)

- Extension course taught by Prof. Dr. André Tanus Cesário, PhD in Theoretical Physics/Quantum Information Theory from UFMG.
- Workload: 30 hours. Period: April to July 2026.

TECHNICAL SKILLS

- Languages: HTML, CSS, JavaScript, Python, Java
- Frontend: React
- Logic and Algorithms: basic data structures, problem solving
- Backend / Data: Node.js, Spring Boot, JSON Server, API consumption
- Version control: Git and GitHub
- Other: responsive design, web page structuring, design system

FEATURED PROJECTS

Secure+ — *Node.js, JSON Server, HTML, CSS, JavaScript*

- Team project (5 members): public safety web platform for sports stadiums, with an interactive map that highlights the sector with the most reports and data updated via API.
- Personal contributions: unified the visual system into a single design system, refactored styles and inline scripts into external files across 11 pages, and fixed profile image display and carousel bugs.

Footscore — *HTML, CSS, JavaScript*

- Football team statistics website, displaying data in interactive cards per team, including recent results and upcoming matches.

Defend the Castle — *Python, Pygame*

- 2D game developed by a team (4 members), with tower defense logic implemented in Python.

ClimaAPI — *Java, Spring Boot*

- REST API that consumes the OpenWeatherMap API to return current weather and forecast, with error handling for invalid cities and external API unavailability.

SOFT SKILLS

- Organization and attention to detail
- Fast learning and proactivity
- Teamwork
- Commitment to professional development
